

Duets[®]

dual fill
portion-control
packaging

Shown above: Tuna tacos w/Co-Jack shredded cheese blend & wasabi peas

- Reduces material and handling costs while increasing efficiency
- Produces a single pouch with two, portion-control compartments
- Enables two filling heads to pack products that cannot be commingled

Pack a pair for efficiency & convenience

The Sargento Duets[®] portion-control packaging system reduces material and handling costs while increasing efficiency. Duets[®] packaging provides customers with the unique option to fill two 4-ounce packets simultaneously with products that cannot normally be commingled—cheese, meat, dried fruit, grains, etc.

Packaging sizes

Small pouches

3 3/4" (95 mm) wide
7 1/2" (190 mm) wide if using both sides

Large pouches

5 1/8" (130 mm) wide
10 1/4" (260 mm) wide if using both sides

Fill capacity

- Two separate side-by-side pouches provide the ability to vary the fill capacity of each pouch—a key benefit for customers!
- Ability to produce 2 different size fillings

Configurations

Pouches are gas flushed/hermetically sealed and the finished pouches can either be a:

- Perforated package
- Two separate pouches
